Summer Camp

June - August

NAME	AGE	SESSION OPTIONS
Explorers	18 months – 2.11 years	Two 4-week sessions or 8-week session
Our Lower Camp program is based on the Montessori Toddler Classroom, taking advantage of your child's natural love of learning and drive to act independently. Toddlers explore a language-rich classroom in which they learn to care for themselves, preparing for the adjustment to separation in a safe environment. To ease this transition, Lower Camp is divided into two separate four-week sessions. (Explorers do not need to be fully potty trained in order to register!)		
Scouts	3 years	Two 4-week sessions or 8-week session
A loving and nurturing environment is the primary consideration for our 3 year olds. This program is tailored to meet campers' needs with staff who are experienced and responsive to young children. In this environment, we have specifically designed the curriculum to accommodate your campers' individual skills and abilities that focus on consistency, safety and independence.		
Navigators	4-5 years	2 week sessions
As a "Navigator" your child will participate in a full day of activities in small groups overseen by experienced counselors. Campers rotate through a variety of specialist led activities, which challenges and enrich their day. The child-centered environment gives these campers the attention they need, allowing them to build close relationships and memories with encouragement and support.		
Voyagers	6-8 years	2 week sessions
Voyagers participate in a busy week, full of Passport specialist-led activities tailored to their age and interest, including science & nature, sports & games, arts & crafts, water sports and more. All of their camp activities have opportunities for individual decision-making, allowing them to meet challenges with confidence and enthusiasm. Weekly field trips and frequent walks to the local pool are		
Pioneers	9-11 years	2 week sessions
This program fosters friendship, fun, and group unity for young adults, and is designed to specifically target leadership development and life skills. Pioneers choose their activities and trips, and have the opportunity to work with community partners in their specific areas of interest. Campers are encouraged to step outside of their comfort zone and learn about their place in the world.
